

Romeo & Juliet

FEBRUARY 2026

WHO WE ARE

Thespihonest Theatre Company, founded in 2016, exists to uplift, showcase, and inspire artists who don't fit the traditional mold of classical theatre. We reimagine the works of the Bard and beyond through a modern, inclusive lens — **creating space for queer and trans voices to thrive.**

Our mission is to build a haven where artists from every walk of life can study, learn, and explore classical storytelling in a safe, loving, and creatively charged environment. Through our work, we strive to bend the boundaries of tradition and bring timeless stories into conversation with the world we live in today.

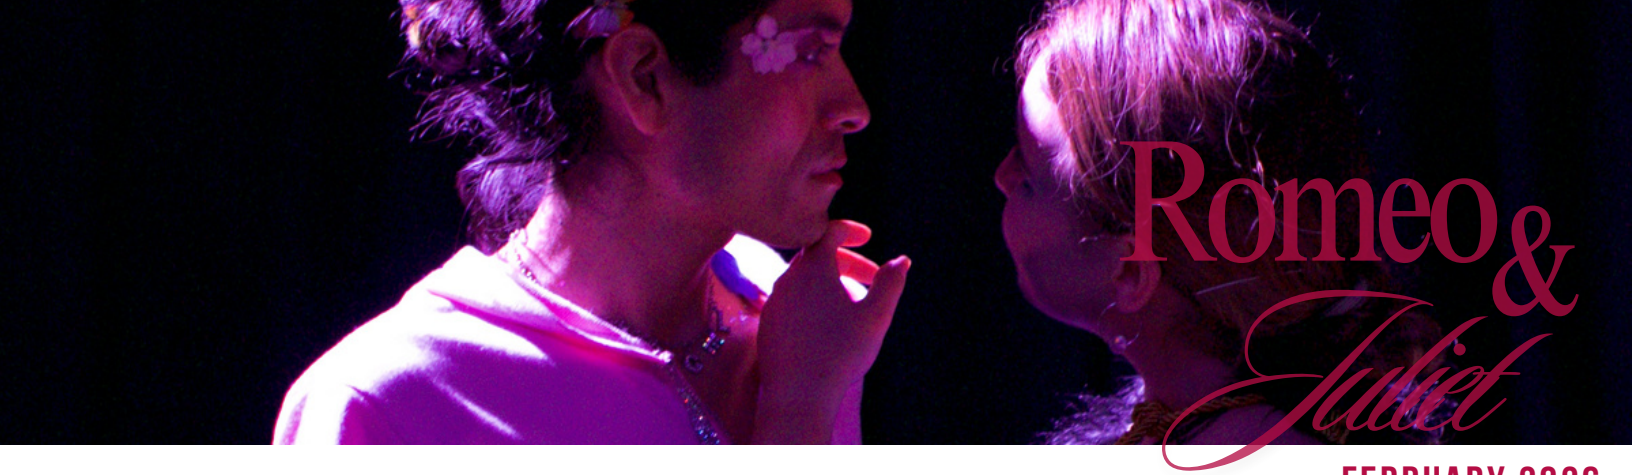

ABOUT THE SHOW

In an era when queer lives continue to face erasure, this work stands as both resistance and celebration.

In our rendition of the classic tale, Juliet is portrayed by a woman opposite a queer, non-binary Romeo, illuminating the emotional realities many young queer people face when balancing love, authenticity, and family expectations. About a third of Shakespeare's text has been re-envisioned through movement and physical storytelling, accompanied by a live violinist weaving queer anthems from across generations.

Visually, the production draws from the play's astrological imagery—each character embodying a celestial force such as the Sun, Moon, or Mercury. Blending movement, music, and queerness, Romeo & Juliet becomes a living constellation.

WHERE YOU COME IN

By giving, **you're investing in queer storytelling** and helping build a theatre community where everyone can see themselves represented.

Your contribution will go directly toward:

- Paying our queer and trans artists fairly for their work
- Renting rehearsal and performance spaces
- Building sets, costumes, and lighting
- Ensuring accessibility for our community
